RADIANT TECHNOLOGY CO PRO™ CARBON MONOXIDE MONITOR + DIGITAL G-METER

CO Pro™ is a new generation product in Radiant Technology's robust line of avionic and sensor tech instruments. CO Pro™ is a Carbon Monoxide detector and G-Meter all in one. Designed for pilots and aviation enthusiasts, the portable detector features two primary interfaces—one with continuous CO graphing capability and the other showing a G Meter (which also shows CO levels in background). The unit has an audible alarm and is battery powered up to five hours on a single charge (rechargeable with USB). CO Pro™ updates Radiant's carbon monoxide safety product line with brilliant new features. The ability to see CO levels trend over time provides better information than competitive, static display monitors. This increases pilot and passenger comfort and also helps to determine what might have happened. For instance, a change in engine noise associated with an observable graph rise in CO levels might be associated with a new crack in an exhaust system.....P/N 10-07470 **\$199.00**
